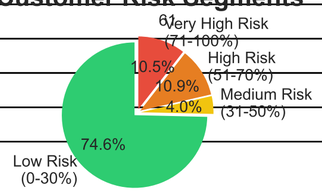
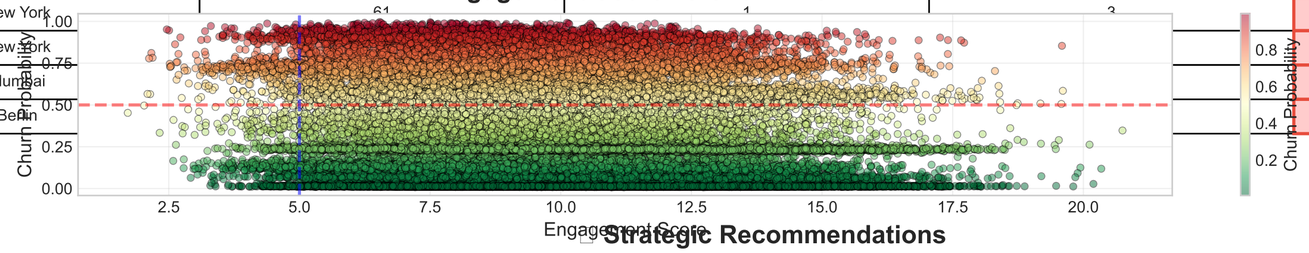
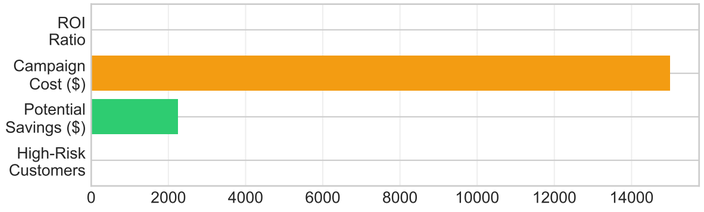
Customer Risk Segments



Engagement Score vs Churn Risk



Campaign Simulation



Strategic Recommendations

```
 TARGET: Focus on 1,200 customers with churn probability >70%
 TIMING: Immediate intervention for 450 very high-risk customers (>85%)
 STRATEGY: Personalized cashback offers for customers with payment failures
 ACTION: Proactive support calls for customers with 3+ complaints
 ENGAGEMENT: Email re-engagement campaign for inactive users (>45 days)
 PRIORITY: Segment with last_transaction >60 days needs immediate attention
```
